Dear Sirs,

Re: Provision of Site Engineers for HBJ Project, India

Thank you for the assistance your company gave us on this prestige project.

We were impressed with the skill and quality of the men that you provided, and are pleased to pass on similar comments from our client. It was an indication of our confidence that both Jim and Ron were able to travel to sites as our sole representatives to work unsupervised on our behalf.

I know that our _____ and Jim worked well together and we now look forward to the next project where we may be able to work together again.

Yours faithfully,

Project Manager
